BANK
WEALTH MANAGEMENT
REPORT™

SPONSORED BY:

The *Michael White-IPI Bank Wealth Management Report* is the first comprehensive source of national, standardized data and performance ratios that measure and benchmark the banking industry's performance in generating fee income from multi-faceted wealth management services including trust or fiduciary-related revenues, securities brokerage fees and commissions (broker), investment advisory, banking and underwriting fees (dealer), and annuity commissions and fee income. Results are based on data from all commercial and FDIC-supervised savings banks and large top-tier bank holding companies.
